

Module Name

Description:

Briefly describe what this module does in plain English.

Main Responsibilities:

List the primary tasks or features handled by this module.

-

File Structure:

Outline the files included in the module with a short explanation.

Dependencies:

Internal and external libraries/modules used.

-

Logic Overview:

Brief explanation of key logic or algorithms used.

-

Integration Points:

Other internal modules or services this connects with.

-

Testing Summary:

Overview of the tests written for this module.

-

Known Issues or Limitations:

Any edge cases or known bugs to keep in mind.

-

Setup Notes (if any):

Any setup, environment variables, or configurations required.

-

Future Improvements:

Suggestions for refactoring, scaling, or optimizing the module.
